OLIVER VITALE

Atlanta, Ga | 770.317.5363 | ovitale18@gmail.com

OBJECTIVE

Web Developer with a background in website creation and creative exploration looking to find a position to join and support a dev team by using skills acquired from Georgia Tech's MERN stack coding program and experience developed in past roles.

TECHNICAL SKILLS

Languages: Javascript, HTML
Developer Tools: MySQL, CSS, ReactJS, Node.js, Webflow, Squarespace
Design Software: Figma
General Skills: Strong organizational skills, attention to detail, curiosity that drives constant personal growth.

EXPERIENCE

Web Developer

Echo Base   Mar 2023- Present

• Designed and developed the Echo Base website and websites for our clients using Webflow & Squarespace based on design files created in Figma.

• Created a custom CMS database used to populate many sections of the website.

Client Work:

Echo Base – Website – www.echobase.com

• Worked in tandem with a web designer and took a basic concept and developed it into a functional website.

• Engineered using the building program Webflow

• Developed extensive, user-friendly CMS systems to allow other associates to upload information and products to the site.

Other projects:

Everybody Eats! – Application – https://kpfranklin22.github.io/Everybody-Eats

• Partnered with a four-person team to create a working app within a tight 3-week deadline.

• Built using HTML, CSS, and Javascript

Head of Quality Control Department

Classic City Vinyl Works   2020- 2022

• Ensured quality of all manufactured products, communicated daily objectives to QC department and ensured goals were met while maintaining a high standard of quality and strict attention to detail.

• Promoted to head of QC department after one year.

• Managed/scheduled 20+ employees, interviewed and hired new employees
